SUMMARY

BSc graduate (Physics, Mathematics & Economics) with Google Data Analytics Professional Certificate and hands-on experience building end-to-end analytics pipelines. Proficient in Python (pandas, NumPy), SQL/BigQuery, Tableau, and Power BI. Combines strong quantitative reasoning with business acumen to surface insights that drive decisions.

TECHNICAL SKILLS

Languages: Python | R | SQL (BigQuery) | DAX **BI & Viz:** Tableau Public | Power BI | Looker Studio
Libraries: Pandas | NumPy | Matplotlib | Seaborn | Scikit-learn **Tools:** Jupyter | Excel | Google Sheets | Git & GitHub
AI & Cloud: Generative AI | Prompt Engineering | Vertex AI | Gemini API | Oracle OCI | Claude AI | Hugging Face

PROJECTS

Superstore Sales Performance Dashboard

Mar 2026

Python · Pandas · Matplotlib · Seaborn · Tableau Public

- Built an end-to-end ETL analytics pipeline using Python and pandas to ingest, clean, and feature-engineer 9,994 rows of retail transaction data, improving data quality and downstream reporting reliability.
- Designed and published an interactive Tableau Public dashboard with 5 executive KPIs — monthly revenue trends, category-level breakdown, top-10 customer ranking, regional profit analysis, and a summary scorecard — enabling data-driven decision-making for stakeholders.
- Identified \$2.29M total revenue with a 12.47% profit margin; surfaced that the Technology category drives 36% of revenue and the West region leads all others in both sales volume and profitability, providing actionable insights for resource allocation.

Bank Customer Churn Analysis

Mar 2026

Google Sheets · BigQuery SQL · Tableau Public

- Conducted end-to-end customer churn analysis on 10,000+ banking records using Google Sheets for preprocessing, BigQuery SQL with CASE WHEN segmentation for cohort analysis, and a 4-view interactive Tableau dashboard to deliver insights to stakeholders.
- Uncovered a critical geographic churn disparity: Germany's churn rate of 32.44% was nearly 2× that of France (16.15%) and Spain (16.67%) despite comparable customer volumes; additionally identified the 46–60 age segment as highest-risk with a 51.12% churn rate, enabling targeted retention strategy prioritization.
- Quantified high-value customer attrition risk: churned customers held 25% higher average balances (\$91K vs. \$73K); customers with 3–4 products churned at 82–100%, exposing an over-selling risk and informing product bundling and relationship management recommendations.

WORK EXPERIENCE

Data Analytics Job Simulation | Deloitte Australia via Forage

2024

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions.

HR Intern — Technical Recruitment | NexGen Hires

Jul–Sep 2025

- Sourced and shortlisted candidate profiles from Naukri.com based on job requirements.
- Collected and verified candidate details for initial evaluation.
- Conducted preliminary screening calls to assess qualifications, experience, and suitability.
- Maintained an organized database of potential candidates for ongoing recruitment needs.

HR Intern — Technical Recruitment | Vimerse Infotech

Sep–Oct 2024

- Conducted sourcing and screening of candidates for technical roles, utilizing job portals, LinkedIn, and other recruitment platforms.
- Collaborated with senior HR managers to define job descriptions, requirements, and ideal candidate profiles.
- Conducted initial interviews to assess candidates' technical skills and cultural fit.
- Managed recruitment for various technical positions, ensuring timely follow-ups and interview coordination.
- Supported the HR team in maintaining candidate databases and preparing recruitment reports for leadership.

EDUCATION

BSc — Physics, Mathematics & Economics | St. Xavier's College, Jaipur

2022 – 2025

Relevant Coursework: Statistical Methods · Mathematical Economics · Data Interpretation · Research Methodology

CERTIFICATIONS

- Claude 101 | Claude Code | AI Fluency — Anthropic
- AI Fundamentals — Hugging Face
- Google Data Analytics Professional Certificate (8 Courses) — Google / Coursera
- Python for Data Science — Professional Badge — IBM
- Oracle Cloud Infrastructure 2025 Foundations Associate — Oracle
- Gen AI Academy Graduate — Google Cloud & Hack2skill (Vertex AI, Gemini API, Multimodal RAG, Streamlit)
- AI Dashboard Development using Microsoft Power BI — Certified Workshop
- Data Analytics Job Simulation — Deloitte Australia via Forage
- Career Essentials in Generative AI — Microsoft & LinkedIn

ACHIEVEMENTS & LEADERSHIP

- Research Paper Presenter — National Symposium on 'Envisaging Vikisit Bharat @ 2024'
- Medal — Leadership & Organisational Skills | St. Xavier's College Jaipur
- Event Coordinator, XSI-Tech Annual Science Fest — Led 15+ volunteers for two consecutive years as Event Coordinator at XSI-Tech, managing end-to-end event logistics, stakeholder coordination, and promotional design for seamless execution.
- Entrepreneurship Training Initiative — Knowledge Transfer Programme
